***Why do we need this information?***

Facilities need to demonstrate their commitment to public outreach and performance reporting. You should have appropriate mechanisms in place to identify community concerns, to communicate with the public, and to provide information on your environmental performance.

***What do you need to do?***

- ♦ Describe your approach to public outreach.
- ♦ List three references who are familiar with your facility.

# Section D

*Tell us about your public outreach and reporting.*

**1** How do you identify and respond to community concerns?

A periodic mailout survey is conducted to solicit feedback from community members. As issues are identified, these issues are tracked to assure appropriate and timely resolution. EMS procedures also provide for similar followup of complaints from the community

**2** How do you inform community members of important matters that affect them?

The plant is located in an area zoned for business. A list is maintained of businesses in the vicinity of the plant. Important matters that affect them would be communicated through this means. We are also investigating the viability of local partnerships, such as through schools or Georgia Power, one of our neighbors.

**3** How will you make the Performance Track Annual Performance Report available to the public?

☐ Website www.

☐ Newspaper

☐ Open Houses

☒ Other

We intend to issue a press release regarding the findings and availability of the Annual Report. In addition we will mail a copy of the report to the local distribution list
